to whom it may concern:

instant traffic and weather that xm provides, saves my company money, to avoid traffic jams and adverse weather conditions save my drivers life's. Also it helps keep the traffic jams down by not being there in the first place. I pay for a service that they provide. Just like cable or sat tv i pay for what service that i want. Thinking of making xm radio to do away with this service is wrong. Another way my Government is making corp america how to run there company's
